

2019-20 AP Environmental Science Summer Project

ALL AP ENVIRONMENTAL SCIENCE (APES) STUDENTS NEED TO BE ENROLLED IN THE APES GOOGLE CLASSROOM! Follow the directions on the hard copy of your summer project! There are three parts to the project, and each one is due on a specific date. (See schedule below.) The 2019-20 AP Environmental Science Summer Project is the first posted assignment at the top in this APES Google Classroom. The posted assignments below are those that my class completed this past school year. I am leaving these for you to review so you get an idea of what is required for this APES course. AND--you may want to read their comments on Anthropogenic Climate Change! You have a hard copy of the summer project AND it is also attached as a Word Doc in the classroom. The three videos and articles for Part One are attached, as is the Let's Talk Climate eBook for Part Three. Part Two you must research on your own. This is a 300 point project and here are the due dates: **Part One – Sunday, June 30, Part Two – Wednesday, July 31, and Part Three – Sunday, August 4. ALL PROJECT PARTS MUST BE TURNED IN ON TIME--THERE ARE NO EXCEPTIONS!** Read the details in your project description!

IF YOU HAVE ANY QUESTIONS, CONCERNS, OR PROBLEMS WITH THIS SUMMER PROJECT, PLEASE EMAIL ME: Mrs. Marrs – bmarrs@vvuhsd.org

I cannot help you if you do not contact me, and this project is worth 300 points!
